

# PROPLANT

## SEED RATE CONTROLLER

### Turn your current planter into a precision planting machine.

Say goodbye to the jerky unpredictability of ground-wheel drives; say hello to field proven results. ProPlant™ is an electronic/hydraulic seed-rate control system that can help you maximize yields and operate more cost-effectively by improving seed spacing and placement. Program the system for your crop seed, test it pre-field, and then plant with complete confidence.

The capable ProPlant™ gives you both simple set-up and easy operation, while improving your productivity **and** your bottom line.
